Tofu Cat Litter is always our flagship product. Made of food-grade soy pulp, it is a safe and natural option for your beloved cat.

Strip Tofu Cat Litter

Crushed Tofu Cat Litter

Cost Effective & Fast Clumping:

Absorb a liquid volume 4-5 times greater than itself in just 2 seconds, and clump in 3 seconds.

Natural & Safe:

Free from toxic elements, absolutely no artificial additives added.

Strong deodorizing:

The natural properties of tofu make it a super absorbent litter with excellent odor absorption.

No Tracking:

Dust-free pellets and adheres very little to cat's paws.

| | |
|-----------------|--|
| Raw Material | Pea residue, soybean residue, starch |
| Specification | 2.5kg/5kg/or customized |
| Package | PP vacuum bag, carton, woven bag or customized |
| Shape | Stripe (1.0-4.0mm) /crushed (1.0-3.0mm) |
| Colour & Flavor | Natural or customized |

Corn Cat Litter, 100% natural and safe, is totally made from the non-edible part of the corn cob. Comparing with the other types of tofu cat litter of the same price, made of pea or soybean residue, it has better performance at odor control and clumping. It is also an excellent eco-friendly choice, with the litter is biodegradable and compostable and can be flushed down the toilet. In recent years, it has become increasingly popular all over the world.

Corn Cat Litter

Strong Water Absorption:

Absorb water in 1 second and clump in 2 seconds without sticking to the bottom.

Cost Effective:

Lower price, better performance.

Dust Free:

5 steps dust removal process, 99% dust free.

Light & Easy To Clean:

Being 100% biodegradable, it can be flushed down the toilet directly.

| | |
|-----------------|--|
| Raw Material | Corn cob |
| Specification | 2.5kg/5kg/or customized |
| Package | PP vacuum bag, carton, woven bag or customized |
| Shape | Stripe or customized (1.0-4.0mm) |
| Colour & Flavor | Natural or customized |

Mixed Cat Litter is made from a mixture of bentonite cat litter and tofu cat litter. It is cost-effective and combines the advantages of mineral cat litter and tofu cat litter.

2:8 Mixed Cat Litter

3:7 Mixed Cat Litter

Scientific Ingredient Ratio:

Based on customers' different needs, design products with outstanding performance

Ideal Diameter:

1.5mm-2mm, comfortable for cat feet.

Good Water Absorption And Fast Clumping:

Absorb water in 1 second and clump in 3 seconds without sticking to the bottom.

Strong Deodorizing:

Activated carbon and deodorant particles prevent unpleasant smells. Say goodbye to the stink.

Solidarity:

Firm and not easy to disperse, easy to shovel.

| | |
|-------------------|--|
| Raw Material | 3%-5% deodorizing particles, 20%-35% spherical bentonite cat litter, 60-80% tofu cat litter. |
| Specification | 2.5kg/5kg/or customized |
| Package | PP vacuum bag, carton, woven bag or customized |
| Shape | Stripe & Ball shaped |
| Colour & Flavor | Natural or customized |
| Surface Treatment | Dust abatement |

Lucky Spirit mineral cat litter is made from 100% natural sodium-based bentonite as raw material, while using advanced processing technology (triple dust removal process and triple deodorization process). So comparing with the same type of products in the market, obviously it has better performance.

Ball Shaped Mineral Cat Litter

Broken Mineral Cat Litter

Super Water Absorption, Fast Clumping:

Absorb water in 1 second and clump in 2 seconds without sticking to the bottom.

Cost-Effective:

Clumping like dish, smaller particles save usage.

Dust Free:

With advanced dust removal process, almost no dust generated during use. Protect you and your cat's health.

Strong Deodorizing:

Triple deodorization effect is more ideal, lock the bad smell inside. Keep the indoor air fresh.

Safe To Use:

Do not add any chemical additives, non-toxic.

Low Tracking:

Ideal particle size, low tracking and comfortable for cat feet.

Crystal Cat Litter also called Silica Gel Cat Little, is an ideal pet garbage cleaner, which has unparalleled excellent characteristics of other cat litter. There are 2 types of crystal cat litter: clumping and non-clumping Crystal cat litter.

Non-clumping Crystal Cat Litter

Clumping Crystal Cat Litter

Super Strong Water Absorption And Odor Absorption:

It can maintain water absorption for a long time, and can instantly absorb the moisture and odor or cat feces, thus effectively controlling odors.

Non-Toxic And Odorless, Green And Eco-Friendly:

Non-toxic and odorless, very safe.

Dry And Clean, Long-Lasting Antibacterial:

It is an inorganic, non biodegradable substance, so it is not easy to mold as ordinary cat litter. In addition, it creates a very dry environment in the litter box, which can effectively inhibit bacteria.

Low Dust:

99% dust free and can protect the cat's urinary and respiratory systems.
